The Snowman

Rosie opens the closet. She puts on her jacket. She opens a drawer. Rosie takes out a hat and gloves. She puts them on. Rosie takes out another hat. What is she doing?

Rosie goes outside. There is snow on the ground. She rolls a big ball of snow. She rolls another ball of snow. She puts the hat on top.

Rosie is making a snowman!

The clouds blow away. The sun shines down. Rosie's snowman starts to melt.

Rosie tries to pat more snow onto the snowman. It turns to wet mush. Her gloves get wet. Rosie is sad. It's time to say goodbye to her snowman.

ABOUT LEXILE LEVELS

Common Core Kingdom, LLC is a certified Lexile® Partner. These texts are officially measured and approved by Lexile and MetaMetrics® to ensure appropriate rigor and differentiation for students.

The Lexile Framework® for Reading measures are scientific, quantitative text levels. When the Lexile of a text is measured, specific, measurable attributes of the text are considered, including, but not limited to, word frequency, sentence length, and text cohesion. These are difficult attributes for humans to evaluate, so a computer measures them.

Common Core State Standards uses Lexile level bands as one measure of text complexity. Text complexity ranges ensure that students are college and career ready by the end of 12th grade. Lexile measures help educators scaffold and differentiate instruction, as well as monitor reading growth.

Grade Band	Lexile® Bands Aligned to Common Core Expectations
K-1	190L-530L
2-3	420L-820L
4-5	740L-1,010L
6-8	1,185L-1,385L

Keep in mind when using any leveled text that many students will need scaffolding and support to reach text at the high end of their grade band. According to Appendix A of the Common Core Standards, "It is important to recognize that scaffolding often is entirely appropriate. The expectation that scaffolding will occur with particularly challenging texts is built into the Standards' grade-by-grade text complexity expectations, for example. The general movement, however, should be toward decreasing scaffolding and increasing independence both within and across the text complexity bands defined in the Standards."

Inside Out

Once upon a time, there was a little girl named Lara. She had dark shiny hair and big blue eyes. Everyone thought that Lara looked beautiful. On the inside, Lara was very ugly. She thought mean thoughts and said nasty words. She kicked stray cats out of her way. She took candy from small children.

One day, the Inside Out Witch put a spell on Lara. "Now, your ugliness inside will show up on the outside," she said.

"Get out of my way!"

Lara snapped at an old man. Just like that, a wart popped up on her nose.

"You saddled my horse wrong, dummy!" she

called at a servant. Right

away, her hair became dull and flat.

Each time Lara was nasty, she became uglier. She didn't like that the spell worked both ways. If Lara was nice, she became

some more beautiful. Lara never wanted to be ugly again.

Polar Bear Problem

Spring is here. Mama Bear wakes up. Baby Bear wakes up. They are hungry. It is time to hunt.

All around is ice and snow. Mama Bear crouches low. Baby Bear watches her. Mama Bear sees a flash of black. It is a seal! Mama Bear jumps into the water. She hunts the seal.

“Now you try,” she says.

Baby Bear tries. He crouches low. He sees a flash of black. It is a seal! Baby Bear lifts his paws. He growls. The seal sees his black paws. It hears his growl. It swims away.

“I can’t do it,” Baby Bear says.

“Try again,” says Mama Bear. “Stay low. Be quiet. You will catch a seal someday.”

Baby Bear tries and tries. It takes many tries. One day, he catches a seal.

“I did it!” he says.
